The Raine Medical Research Foundation

A Living Legacy

It is true to say that, if not today or even tomorrow, certainly at some time in the future, each and every West Australian will benefit in some way from the generous legacy Mary Raine left to this State.

Meg Sangster, The Mary Raine Story
Mission

The net income of the Fund shall be applied towards seeking, diagnosing and investigating the nature, origin and causes of diseases in human beings, with the initial emphasis on arteriosclerosis and allied diseases, and the prevention, cure, alleviation and combating of such diseases.

RAINE PRIMING GRANTS

Provide funding for early career medical research scientists, particularly for those who are progressing towards an independent research career, to assist them to become more competitive for national and international peer-review grants.

The Grants provide funding for research into any area of medical science that investigates the nature, origin and cause of human disease, and the prevention, cure, alleviation and combating of such disease.

The Grants are offered for a two-year period subject to annual review, and may be used to provide funding, or part funding, for salaries of researchers and/or technical staff, and consumables.
RAINE RESEARCH PRIZE

**The Prize**  
$5,000 travel allowance  
Medallion

Awarded to the best scientific paper arising from research undertaken primarily at The University of Western Australia or affiliated institution

**Who should apply?** Researchers working in the field of medical/health science who have completed their doctoral degree or professional qualification within the last six years
STRACHAN MEMORIAL PRIZE

The Prize  $5,000 travel allowance
Certificate of Distinction

Awarded to the best scientific paper arising from clinical or medical health research undertaken primarily at The University of Western Australia

Who should apply? Clinicians and clinical scientists in Western Australia working in the field of medical/health science who have completed their doctoral degree or professional qualification within the last five years
HEALY RESEARCH COLLABORATION AWARDS

The Grants up to $10,000 grants each are available to help facilitate cross-institutional ties, with increased opportunities for collaborative publications, joint grant submissions, sharing and advancement of research skills, and industry linkages

Introduced by the Research Committee in 2012 to encourage early-career medical research scientists employed by The University of Western Australia to develop research collaborations, both nationally and internationally.
